**DETAILED ACTION**

***Response to Amendment***

Applicant's amendments to the claims, filed 5/24/2007, are accepted and appreciated by the examiner. Applicant has canceled claims 3, 62-64 and 66-76 and added new claim 77. In response to applicant's amendments, all previous rejections of the claims are withdrawn.

***Allowable Subject Matter***

Claims 1-2, 4-60 and 77 allowed.

The following is an examiner's statement of reasons for allowance: Applicant has amended all independent claims to include the subject matter of deleted claim 3 which was previously indicated as allowable. Specifically, although the steps of calibrating a single reference device and using those calibration values to calibrate further devices is known in the prior art, the steps of using the calibration values of a master device to augment the later calibration of a slave device which is also being calibrated with reference targets in the manner claimed is found to be distinct and non-obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
